

Water Filter Cartridge

Designed for sediment, cyst and chlorine taste & odor reduction

Atlas Filtri® EC2014HF35 cartridge is a retrofit replacement cartridge to be used in BEV135 Water Filtration Systems.

This unit is designed to reduce sediment, cyst and chlorine taste and odor in your commercial foodservice beverage applications. Its quick change cartridge design requires no activation, allowing for fast and easy cartridge change-outs. The reduction of sediment and hard particles helps to extend the life of your foodservice equipment.

Atlas Filtri is driven to providing our customer with the best available products to meet specific filtration requirements. This is done by using the most advanced manufacturing and design methods. The international patents received come from a constant commitment to research and development that result in new and innovative products.
